Dr. John Blank

About Unison Headquarters

Unison moved its corporate headquarters from Monroeville, Pa., to the former Westinghouse complex in Braddock Hills, Pa., in 2007.

The campus setting overlooks Interstate 376 just east of the Squirrel Hill Tunnel.

The modern facilities merge many components of Unison's ever-expanding and improving operation.

Unison's corporate headquarters features:

- 112,000-square-feet
- Approximately 20 acres of land
- A five-story, 67,000-square-foot building attached to a one-and-a-half story, 45,000-square-foot building.

Unison Administrative Services LLC was formerly known as Three Rivers Administrative Services LLC. Unison provides insurance in Delaware, Pennsylvania, Ohio, South Carolina and Tennessee.

Unison has expanded its workforce and enrollment steadily since 2001. As of April 2008, Unison employed more than 2,000 and served about 380,000 plan members.
